

The Lycan Coalition – Candidate Commitment (Voluntary Pledge)

Lycan Coalition — Center-Wing Green, Pluralist & Realist Commitment

This is a voluntary civic commitment, not a party loyalty oath.

Candidates remain independent in judgment, affiliation, and conscience.

By affirming this commitment, I acknowledge alignment with the Coalition’s core principles:

1. Environmental Stewardship

I recognize environmental responsibility as essential to long-term stability and support policies grounded in science, resilience, and practical stewardship.

2. Pluralism & Human Dignity

I affirm the dignity of people with different identities, beliefs, and family structures, and reject governance through coercion or dehumanization.

3. Mental Health as a Public Good

I support mental health education, stigma reduction, and practical access to supports that protect dignity, privacy, and civil rights.

4. Functional, Accountable Governance

I support effective, accountable institutions and resist both bureaucratic excess and institutional sabotage.

5. Realist Security & Public Safety

I support responsible national defense and public safety, rejecting both endless war and naïve pacifism.

This commitment reflects shared principles, not total agreement on all policies.
